CREDENTIALS

ServiceNow CSA, ITIL v3/v4, ITIL Intermediate, CSPO, CompTIA Security+, CompTIA Network+

ENGAGEMENT FIT

Scoped advisory sprints, embedded delivery support, C2C/1099 support where appropriate, and subcontracting conversations.

Open to federally sponsored vetting and security-clearance processes where required.

COMPANY OVERVIEW

Senior ServiceNow and SaaS advisory practice helping platform owners and prime-contractor teams turn governance friction, backlog ambiguity, data/reporting risk, AI usage, and release-readiness gaps into executable platform decisions and delivery artifacts.

CORE CAPABILITIES

- ServiceNow advisory, platform governance, and implementation readiness
- Custom applications, Flow Designer/workflow automation, and low-code readiness
- Responsible AI enablement, prompt-enabled analysis, and governance guardrails
- ITSM, SPM/ITBM, APM, CSDM/CMDB, reporting, and KPI requirements
- End-to-end SDLC: discovery, epics/stories, UAT, release, go-live, hypercare
- Product owner, business analyst, program, and subcontractor delivery support

PRINCIPAL EXPERIENCE & SCALE

20+

ServiceNow upgrades / implementations completed or supported across enterprise environments.

70,000

User client environment supported for enterprise adoption and workflow transformation.

\$5M-\$20M

Program scale: typical \$5M-\$7M initiatives, with select programs up to \$20M.

47-52

Global contributors coordinated across engineering, QA, architecture, operations, vendors, and business teams.

DIFFERENTIATORS

- Enterprise-scale execution:** 13+ years IT delivery and 9+ years ServiceNow/platform leadership across regulated environments.
- Governance-first delivery:** decision rights, intake, backlog hygiene, UAT, SOPs, reporting, and operating-model discipline.
- Outcome orientation:** experience with forecasting, delivery speed, portfolio visibility, uptime, savings, and adoption metrics.
- Prime-ready posture:** clean contracting facts, disciplined public claims, and scoped support lanes for subcontracting review.

PRIMARY SUPPORT LANES

PRIME SUPPORT

ServiceNow governance, ITSM/SPM, CMDB/CSDM readiness, reporting requirements, product/BA/PM support

DELIVERY FIT

Scoped advisory sprints, embedded delivery support, implementation readiness, and subcontracting conversations
